University of Oklahoma | Master of Business Administration — May 2027
Missouri University of Science & Technology | M.S. in Geological Engineering — Dec 2022
University of Central Oklahoma | B.S. in Industrial Safety — May 2016

EXPERIENCE

Ready 3, LLC *– Oklahoma City, OK*
Defense contractor providing mission-critical technical, training, and cyber solutions
Intern, Aerospace Engineering — *Oct 2026 – Present*

- Leading development of a facility expansion execution plan for the Engineering function, including the Gantt schedule, work breakdown structure, decision gates, and risk register, tracking 65 deliverables across 7 workstreams in coordination with the Director of Engineering and executive leadership
- Designing a standardized SOP package (template, numbering convention, and 5–8 priority procedures) and restructuring the Engineering SharePoint knowledge base so it scales to future projects
- Developing a prioritized RFI process to resolve open scope, site, and approval dependencies ahead of leadership gate decisions

Newmark *– Remote (Oklahoma City), with Dallas office visits*
Real estate consulting firm focused on data, operations, and performance strategy
Summer Intern, Management Consulting — *May 2026 – Aug 2026*

- Merged fragmented ownership records into one interactive online tool, giving the client its first unified view of its ownership structure of 500+ entities
- Built a fully formula-driven Excel tool that auto-generates Mermaid.js diagram syntax and plain-English summaries to create standardized, stakeholder-ready swimlane flowcharts
- Created Design Confirmation Testing (DCT) scripts for Accounts Payable, Commercial Management, and General Ledger, building branded, formula-linked workbooks that validated data conversion accuracy ahead of a January 2027 go-live

Gordian *– Denver, CO*
Consulting firm focusing on capital planning, construction cost estimating, and construction procurement
Capital Planning Consultant, Facilities Assessments & Capital Planning — *Jan 2024 – Jun 2025*

- Managed 18+ assessments totaling over 80 million square feet across government, higher education, healthcare, and pharmaceutical sectors; leveraged construction technology to support capital planning efforts that enabled clients to secure 4–17% increases in annual capital funding
- Identified and eliminated wasteful spending of 8–13% through portfolio level prioritization and lifecycle analysis
- Built repeat business by delivering on time and within 3% of budget baselines where tracked and by establishing a consistent data model transferable across consulting providers

U.S. Army *– Active Duty and Oklahoma Army National Guard* — *Jan 2014 – Jan 2024*
Battalion Logistics Officer | Logistics & Procurement Program Management
Deputy Group Engineer | Facilities & Construction Program Management
Engineer Company Executive Officer and Platoon Leader | Engineering Leadership

- Managed a $350M equipment modernization portfolio and maintained accountability of $15M in operation and maintenance funds with audit-ready records, while supervising sustainment for 3 major exercises
- Led $388M in construction, renovation, and maintenance projects across 695,000 sq ft, on time and within budget; as executive-level liaison between military and civilian organizations in Asia, modernized 30+ facilities serving 1,200 soldiers
- Led a 9-person staff and a $360K annual budget, and managed 2 large-scale infrastructure projects to national safety and quality standards

Engineer Platoon Leader and 19D Cavalry Scout | Oklahoma Army National Guard (part-time)

- Commissioned through ROTC in May 2016; responded to Oklahoma natural disasters in both roles, including ice storm and tornado cleanup
